

ATLIU-12

ATLIU-12T

ATLIU-48

- Aluminium housing with durable Epoxy powder coating
- Suitable for 19" Rack Mountable cabinet
- Allow minimum two cable entries
- Flame retardant plastic, high impact resistance cable spool

ANDA Telecom Fiber Panel is essentially a fiber distribution box wherein the fiber backbone cables and the equipment cables are terminated. The fiber spools provide minimum bending radius and the splice trays function as a splice cover for pigtail splicing.

➤ **12 /24/48 Port wall Mount Interconnect Unit**

Accepts two standard 6/12 port adapter panels Has provision for up to 6/12 fiber splices Has double door construction with lock to prevent unauthorized access The wall mount interconnect unit has two compartment design with optical fiber adapter panels in the center. This two part design aids in systematic arrangement of cables. Plastic cable spools are provided for storage of excess optical fiber cables A slice holder tray with plastic grooves is also provided to securely hold the optical fiber cables / sleeves. The wall mount unit has light weight yet strong all Aluminum construction. The unit is powder coated light Grey.
